

EPPLA MATT VARNISH 1360

Oil-based varnish

Product description:

For supplementary coating of offset inks, if matt effects should be achieved. In aid of the velvety matt effect, sliding properties and rub resistance of dried prints are slightly lower.

Product characteristics:

- Increase of the matt effect
- Fast drying
- Fast absorption
- Suitable for wet in wet as well as for wet in dry
- Can be applied on full surface (without water) or for spot varnishing
- Normal drying time; by adding 2 % dryer 452 or 3 % Eppo Drier 2001 for spot varnishing with water, drying can be accelerated.

Application:

Can be printed on all offset inks. Pile height must be in relation to the coating film thickness and the printing substrate.

Printing additives:

Drier	452
Eppo Drier	2001
Thinner	455
Printing gel	348
