

LABIFOUNT SF

Product description:

Sheet-fed fountain solution. LABIFOUNT SF is a gum free fountain solution suitable for use on all types of web and sheet-fed offset presses. It can be used for both conventional and alcohol dampening systems and gives very good plate protection. LABIFOUNT SF contains wetting agents to maintain an excellent ink/water balance at reduced water feed setting.

Direction of use:

Soft Water: Add 2-3%.

Hard Water: Add 3-4%.

The optimum dosage will vary with the type of press dampening system, water and work being printed and can only be arrived at after some experimentation and experience.

Features:

- Environmentally friendly
- Suitable for use on sheetfed and web offset printing presses
- Stable in all water types
- Balanced pH
- Prevents oxidation during brief press stops
- Compatible with IPA
- Contains antifoams, anti corrosion and mould inhibitors

Technical Data:

Application	Ink	Conv./UV/Hybrid/LED
	Water miscible	
Chemical properties	Appearance	Green
	Odor	Glycol ether
	Classification	N/A
	Flash point	N/A
	Density (25°C)	1,040 kg/L
	Conductivity	320 µS per 1% dosage
	pH	4,7

Ecology and safety:

For specific environmental/food compliance requirements, please contact our technicians for more information.
