

LABITEX CDR

Product description:

Calcium deposit remover. LABITEX CDR is a cleaning product for inking rollers and blankets. Developed to eliminate calcium and magnesium deposit on the rubber surfaces. Regular use of LABITEX CDR regenerates and maintains the original characteristics of the rubber compounds.

Direction of use:

Manual use:

Remove ink from blanket and roller using a standard water miscible blanket and roller wash. Apply a sufficient amount of LABITEX CDR and leave for 5 to 10 minutes. Wash off the roller and blanket with water and dry.

Features:

- Suitable for use on all type of blanket and roller rubber compounds;
- Highly concentrated and economical in use;
- Easy application and effective cleaning action;
- Can be used in conjunction with other cleaning solvent as part of a press maintenance program.

Technical Data:

Application	Ink	N/A
	Water miscible	✓
Chemical properties	Appearance	Green gel
	Odor	Odorless
	Flash point	N/A
	Density (25°C)	1,070kg/L
	VOC content	0%

Ecology and safety:

For specific environmental/food compliance requirements, please contact our technicians for more information.
