

LABITEX FLEX E UV

Product description:

Anilox cleaner for UV/EB inks. LABITEX FLEX E UV has been developed for optimum cleaning performance for anilox rollers, ink metering systems and machine parts. LABITEX FLEX E UV is formulated using effective detergents and solvents for cleaning UV/EB inks and coatings. Flex E-UV can be used with automated wash systems and manual tank cleaning.

Direction of use:

Manual use:

Use neat or dilute with up to 20% water for general cleaning. Apply using a clean cloth, brush, pad or sprayer. Allow the product to work for a few minutes, wipe the surface to remove all contaminants.

Automatic system:

Follow manufacturers recommendations.

Features:

- Environmentally friendly;
- Easy application and effective cleaning action;
- Low odor;
- Fully biodegradable;
- Economical in use;
- Prolongs the life of anilox rollers;
- Corrosion inhibited;
- Versatile in use.

Technical Data:

Application	Ink	UV/EB
	Water miscible	✓
Chemical properties	Appearance	Blue
	Odor	Glycol ether
	Classification	AIII
	Flash point	>80°C
	Density (25°C)	0,962kg/L
	VOC content	0%
	pH	Neutral

Ecology and safety:

For specific environmental/food compliance requirements, please contact our technicians for more information.
